Full Stack Developer Intern | AI/ML Enthusiast

SUMMARY

Full Stack Developer who has independently built and shipped two production AI-powered web apps (React, Node.js, Firebase, LLM APIs). Strong in DSA, algorithms, and ML, backed by AWS ML/Cloud certifications. Seeking a Full Stack Developer Intern / AI-ML Intern role.

EDUCATION

KIET Group of Institutions

2024 – 2028

B.Tech, Computer Science & Engineering (AI) — CGPA: 8.31/10 (3rd Year)

- Relevant Coursework: Data Structures & Algorithms (Java), Object-Oriented Programming, Database Management Systems

Darshan Academy — Senior Secondary (12th), CBSE, Science

2023 – 2024

Percentage: 90.2%

Darshan Academy — Secondary (10th), CBSE

2021 – 2022

Percentage: 78.4%

TECHNICAL SKILLS

Languages: Java, JavaScript

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Vite, Shadcn UI

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, Firebase (Firestore)

Cloud: AWS

AI/ML: TensorFlow, PyTorch, scikit-learn, Google Gemini API, RAG (Retrieval-Augmented Generation)

Tools: Git, GitHub, Postman, VS Code, Vercel

PROJECTS

DocuChatAI — RAG-Based Document Q&A Platform

React (Vite), Node.js/Express, Firebase (Firestore, Auth, Storage), Google Gemini API

- Architected and independently built a full-stack RAG document Q&A app, enabling users to upload PDFs and receive AI-generated, source-cited answers instead of manually searching documents
- Engineered a custom text-chunking and embedding pipeline using Gemini embeddings (~500-token chunks, 50-token overlap) with in-memory cosine-similarity retrieval, surfacing the top 4–5 relevant passages per query
- Implemented secure Firebase Authentication (Email/Password and Google SSO) with per-user Firestore security rules, ensuring users could access only their own documents and chat history
- Designed a responsive chat interface with streaming AI responses, cited sources, and persistent per-document conversation history; deployed to production on Vercel

[docu-chat-ai-nu.vercel.app](#) | [github.com/Mayan-git/DocuChatAI](#)

HireWise-AI — AI Interview Prep & Resume Analysis Platform

React, Node.js, AI/ML APIs

- Independently designed and developed an AI-powered career platform offering resume scoring, job matching, and simulated mock interviews to help candidates prepare for job applications
- Built a resume-scoring engine that analyzes uploaded resumes against role requirements and generates personalized, actionable career recommendations
- Developed an interactive mock-interview module simulating realistic Q&A sessions to help users practice and improve interview performance

CERTIFICATIONS

- AWS Certified Machine Learning Engineer – Associate (April 2026)
- AWS Certified Cloud Practitioner (December 2025)
- Generative AI (Microsoft & LinkedIn) (March 2025)
- AI For Everyone (March 2025)

CODING PROFILES

LeetCode: [leetcode.com/u/lg_mayan](#)

LANGUAGES

English, Hindi (Native), Spanish (Basic)
